A HIDDEN DEATH OF PUTIN? HAS HIS TWIN OR A HIDDEN LOOK-ALIKE TAKEN HIS PLACE AS DICTATOR

article 1 à 3

THE MYSTERIOUS DISAPPEARANCE OF A PRESIDENT

We recently discovered, without doubt one of the greatest current state secrets. While Russia is at war and under the influence of a dictatorship, President Vladimir Putin disappeared from the media for ten days.

According to Closer, Volodymyr Zelensky the President of Ukraine and his ministers have tried to contact him several times but they have heard nothing. Ukrainian intelligence was sent to the Kremlin to resolve this controversy. A few days later he reappears in the media but we are forced to notice some modifications present on his face.

PUTIN'S NEW LOOK

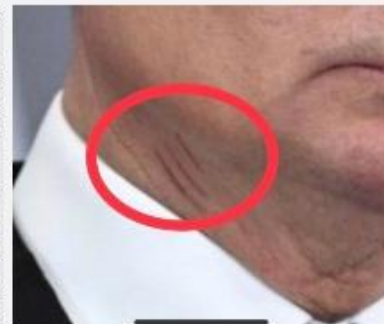

Since his reappearance, many journalists have limited his appearances in public. By zooming in on certain details we noticed that in a photo published in the world Vladimir Putin has a mole on the right of the upper lip. Indeed, the Russian dictator has never had any physical distinction of this kind on the face. But what is most amazing is that a new scar has appeared on his neck. We suggest to think that he was injured during his disappearance. However, according to our scientists the scar dates back more than two years in view of its healing. This news alerts all the surrounding countries, in particular the Ukrainian authorities

We all ask ourselves the question, **What could have happened? is it one of his doppelgangers? is this a hidden twin brother?**

Is he dead? did he retire? Is he still preparing a new attack?

We have studied the question and many theories come to mind. Our teams first thought that Vladimir Putin no longer felt able to face these wars, but knowing his determination and his need to have power, this idea was quickly dismissed. the second possibility is that he is deceased and that the Russian authorities are protecting his image and having him replaced. It would be the first time in history that a dictator with so much power could be replaced without anyone noticing.

WHAT ARE THE CONSEQUENCES FOR THE RUSSIA-UKRAINE WAR?

if the news is confirmed by the spies sent to Russian soil, the repercussions on the Russian Empire are likely to be significant. indeed, identity theft can surely be punished. But will they be able to unmask the hard-to-believe news?

Will the fake putin succeed in making decisions as important as putin made when he was in power?

If the person in power right now turns out to be Vladimir Putin's twin let's hope their characters don't look as much alike as their looks!

We then ask ourselves the question of whether peace between the two countries at war will it be restored thanks to the death or disappearance of Vladimir Putin.

According in French newspaper Le Monde, the Russian president would have 4 look-alikes around the world, two brothers including a twin. All would be afraid for their days. According to our sources a secret and private ceremony should be organized in the coming days.
